

HV3HD High Velocity End Mills

The Mil-Tec HV3HD is the smallest insert in the High Velocity series of end mills. The HV3HD features Smoothgrind® precision ground carbide in both the SS SuperShear and PS PowerShear geometries. Starting as small as 5/8" diameter, the HV3HD offers high performance indexable milling in a small and flexible size range.

- Starting at 5/8" diameter
- Perfect for all materials
- Positive Geometry, Free Cutting
- Can cut a 90° Shoulder
- SS and PS Geometry
- Available w/ through coolant feed
- Four Standard Radii

HV3HD Cutter Body (body only)

CUTTER PART #	CUTTER EDP#	DIAMETER	SHANK (S)	OAL (H)	# OF INSERTS	PRICE	PRICE W/COOLANT
